ISSUE NO. 1

KAVANAUGH, AND WHY I GENERALLY BELIEVE GIRLS WHO CRY RAPE. BY: MODERATEDAN

I knew a girl growing up who was raped by a cop. Like many, I didn't believe her. Even though her family won a 1.3 million dollar lawsuit. She went to a CIA training school with me. She rode the bus with me, was the first girl to kiss me, and grab my cock really hard, simultaneously. (Age 11) The Local News Paper slandered her, said "she had an IQ of 70," her Parents house was considered the Red Light District of Madison Heights, all bc her Dad owned a Strip Club way the f* up north. It would seem like she was a troubled kid from a broken home, who was lying to get money. Years later, I was tattooing an old pal who was much older than me. We were on the subject of exes, he brought the girl up in conversation, and said "That Cop was always an old perv." I started to reminisce about something the alleged pervy Officer told me a while ago during a D.A.R.E. rally. (Age 5, photographic memory, it's a blessing and a curse man lol.) The Officer said "he took a pay cut, and was sad bc he had to sell his son's jet skies." Pay cut bc he was pervy to all the school kids?

He used to live by the school, and they shipped him as far away from kids as they could, while still being able to keep him in the district.

Things you need to know:

He was not a normal cop. He was FBI. I'm sick of people hating on local cops, not understanding it's the Feds on a powertrip that are the most fucked up, and commit crimes without fear of getting caught. Rep. Sen. Levin let him off the hook with full pension, and he is currently working in Bear Lake, as a Casino Auditor.

LEAVING COUNTRIES TO ESCAPE COMMUNITY TREATMENT ORDERS (CTOS) BY: AMANDA UK OCT 23, 2018

ALL SHE NEEDED WAS SOMEONE TO ALL SHE GOT WAS POISON, ABUSE A

HELP SAVE HER LIFE

8 YEARS PUNISHMENT IN CYGNET "HOSPITAL" READ FULL STORY HERE

Fleeing the country to escape community treatment orders. It happens for those who can gratefully escape CTOs by getting out of their jurisdiction. CTOs are what they are called in the United Kingdom.

The image shown is a CTO victim from 2016 or 2017 that fled the UK. If you've never been a psych victim or looked in "anti-psychiatry" groups online, you may not even know that community treatment orders (or assisted outpatient treatment in the USA) exist.

You likely never would know that they happen everyday, and they are a terrifying experience for those who want freedom in their own homes.

They get threatened and intimidated that if they don't accept injections or pills, then they will be thrown and locked up into a "mental hospital." Then, their fearful compliance is called a "victory" by the subjectors because they forced their victim to take their chemicals.

With confirmation bias and religious-like fervor, any changes in the victim will be attributed to what they forced on them - only if it is good though, of course. Anything negative caused to the victim is just the victim's own fault or their so-called "disorders" (and not from the fear, intimidation, force, chemicals, and lack of freedom that the subjectors forced on them).

NHS is short for the National Health System in the United Kingdom. The victim, Diana, went with her empathetic boyfriend to another country in Europe. However, when they returned to the UK, she then was put under another lockdown. Writing letters did not seem to do anything.

The increase in weight and worse off physical body is frequently a result from psych drugs and only amplified with confinement. Psych drugs can decrease metabolism, cause bloating, and increased appetite.

Here is another person fleeing to Canada to avoid a psych evaluation.

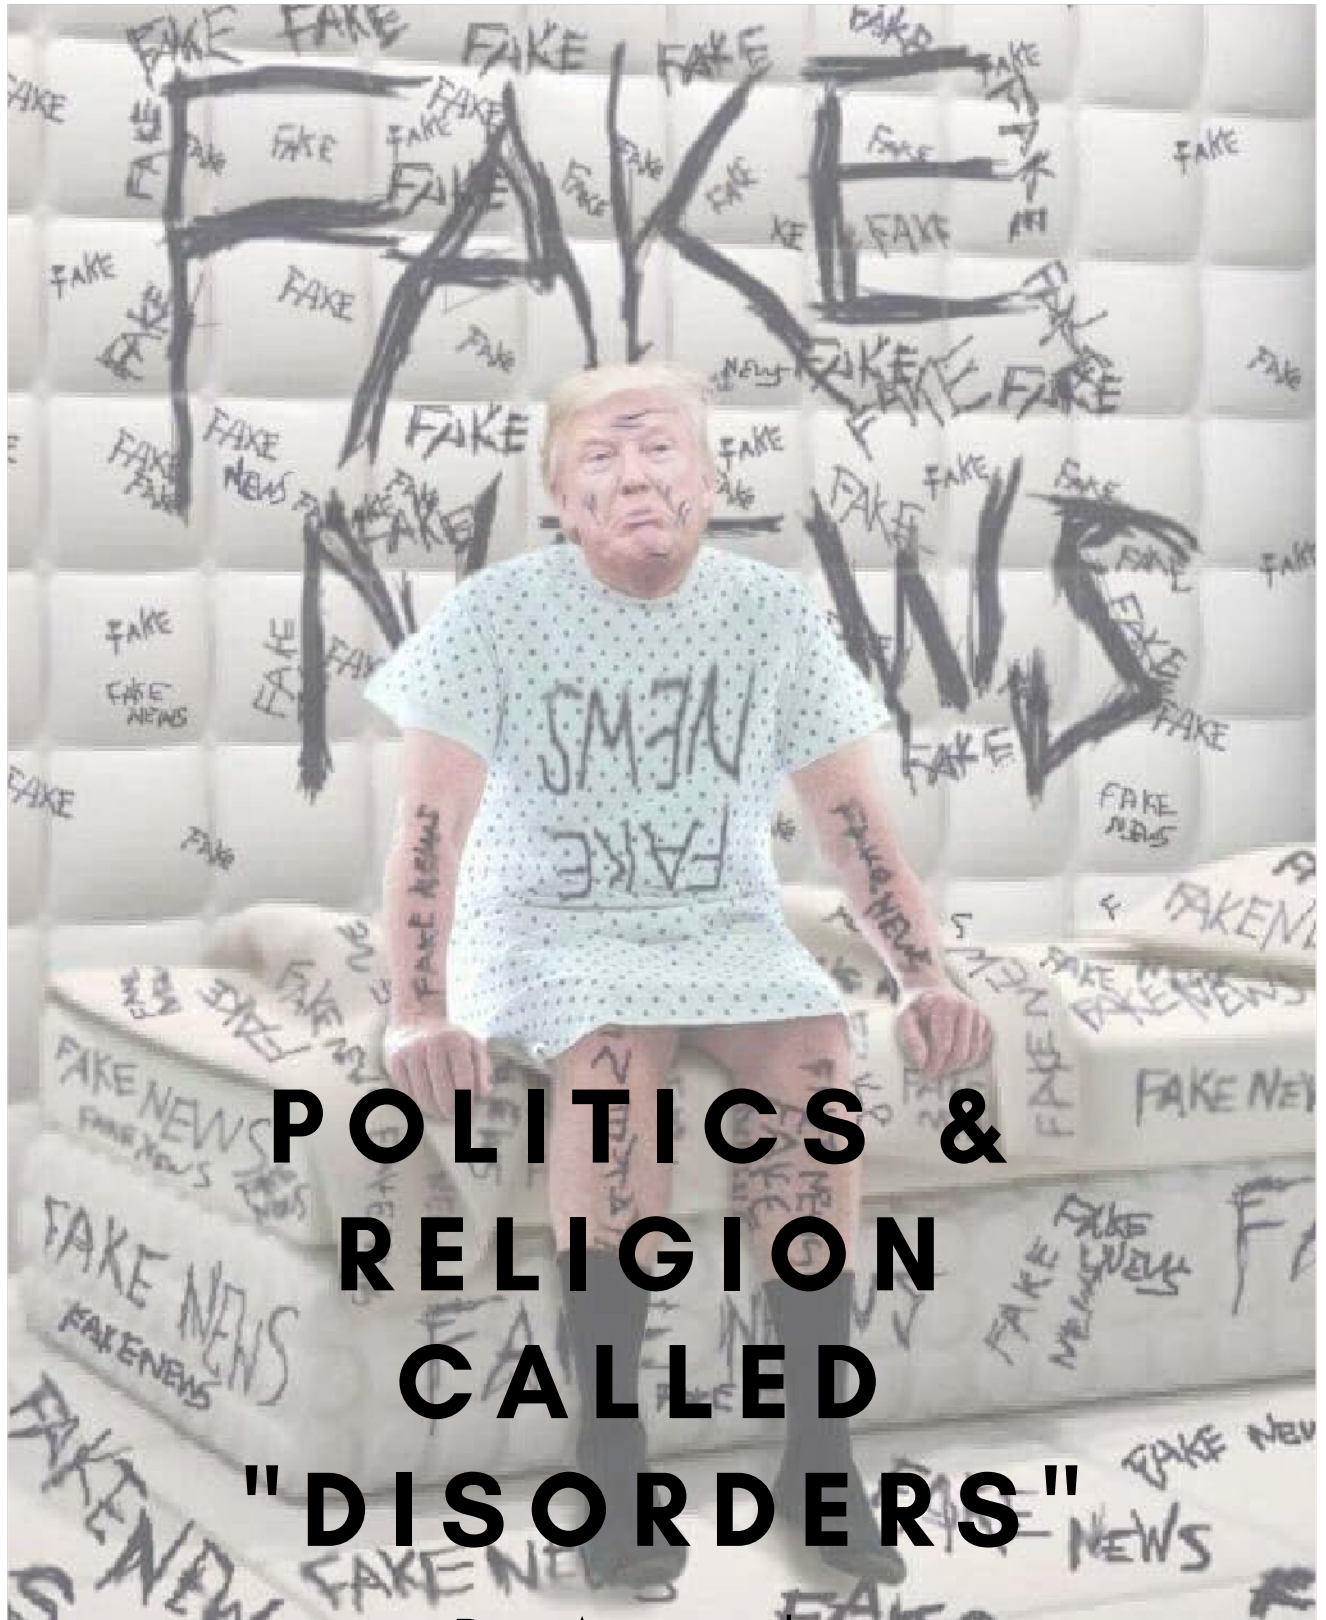

In Australia, victims may try to flee to other provinces in the country, but I've heard that it is very hard to escape in Australia and has high risk when labeled.

However, being labeled anywhere is difficult. In other countries, unlike the USA, though, victims may be able to access cell phones, the internet, or technology. Therefore, there are many victims that we may not hear about in the USA since they're cut off. I've heard of people "talking about" people put into AOTs/CTO's in the USA online, or even put into jail (that can also happen). The owner of a great meme photo page against psych was in one, but it's hard to get out of them.

If people have to escape the country, then we should hear about them.

People should have freedom from this oppression. See how victims exist.

POLITICS & RELIGION CALLED "DISORDERS"

By Amanda
Sep02, 2018

Richard Frascone Actually personal experience IS proof. That is why there is proof of psych victimization. That is why they ask first hand witnesses what they saw. There is no natural physical explanation.. therefore, it is spiritual. **How Psych Destroys Spirituality/Ghost belie**

Richard Frascone Do your spiritual friends talk to you???
Like · Reply · 9 mins

Pretty sure that is outlawed by "mental health."
Like · Reply · 7 mins

Richard Frascone That's why I was asking. If you are hearing things you should see somebody in the real world who can help you!!! You have Obamacare, don't you????
Like · Reply · 6 mins

. Whether it's hate toward President Trump or Atheists/Theists calling each other "disordered" and to go to psych wards, psych is nothing but a social construct created to enforce social norms.

We can see below:

- 1) An atheist taunting a theist (believer in a god) to be "tweeting from a mental institution."
- 2) An atheist or non-religious person is taunting a spiritual person to see a "mental health" professional or in their words, "to see someone."
- 3) A person saying that feeling a "gods" presence is "psychosis."

Then 4) We can see religions or cults use psych to keep their victims. For example, Scientology saying that "any person whose product or relations is consistently destructive or a continuing overt act and/or who wishes to leave" is "psychotic" with "psychosis" and can be interviewed by "the fitness board." (Akin to judges keeping victims locked up in psych facilities or "mental hygiene" in eugenics).

If you have no idea why what Hitler did was wrong without your god, you are utterly terrifying and I hope you're tweeting from a locked institution.

S B @Conigman
Replying to @mjsocotber @godless_mom
So Hitler judges actions that killing Jews is right.
How can he be wrong if each judge actions according to our own opinion?

Someone put him in a straight jacket..Plz! ❌

Obama Forgot He is No Longer President, Shows Up at G20 Summit - Eagle Rising
Obama does not seem to grasp the concept that he is no longer president, as he continues to appear and attempt to show up Trump.

EAGLERISING.COM | BY KEELY MIRANDA SHARP

Moreover, we constantly see volatile remarks about Trump and others, which harks back to what Ron Paul said about unpopular views or beliefs (unpopular to who?):

It's anyone with a so-called "unpopular political belief or lifestyle" who will be labeled.

Even one person last year who did not like Trump and was on the left, but who was a psych victim, felt afraid that their own "left" side was throwing around "crazy" and that Trump or others should go to psych wards to be psych evaluated.

We can see the hatred of psych victimization used toward Obama as well:

Next time you hear of psychology and "mental health" being "worshipped" (metaphorically) as if they KNOW that a person is "mentally ill" - think about how it's simply used as a slur against ANYONE who disagrees.

This is NOT based on science, and neither was Hitler labeled his political dissidents as "mentally ill." It's based off prejudice, social acceptance, and false hypotheses.

Everyday Psych Victims Project

All scientologists - "Unlike" and "Unfollow" us now! We are against cults and brainwashing groups which exploit psych victims while claiming to be their 'saviors.' In this video, it reveals that Scientology's headquarters IS IN AN OLD HOSPITAL WITH CORRIDORS (7:41)! They learn from what they protest against, and use it themselves. Beware! #AntiScientology #AntiPsychology All psych victims should see this video, and be very aware how groups like this will pretend to 'save' you, while actually traffic you from one exploitative network to another. Anonymous protested especially against scientology in 2008. FBI raids have discovered that they've tried to set up people with operations. "Dianetics" uses "mental health's" tactics of forcing people to relive 'trauma' over and over again, just like MH's "therapy" will do - force you to relive negativity endlessly, hence, why people do not ever 'get over' their adversities. EPVP IS OFFICIALLY AGAINST PSYCHOLOGY AND SCIENTOLOGY! #AntiMentalHealth From comments: "After she left, was framed by the scientologists or bomb threats, terrorism and endless lawsuits, their means of destroying others that never ends. She almost went to prison for these framed crimes until the FBI did a raid on Big Blue and discovered documents revealing their complicity in her accused crimes and their intent to destroy her." "Paulette Cooper was the one they framed and they did numerous lawsuits against. The FBI while during a raid in the Scientology building found documents on Operation Clambake. These documents showed they were going after Miss Lovely, AKA Paulette Cooper." #Anonymous

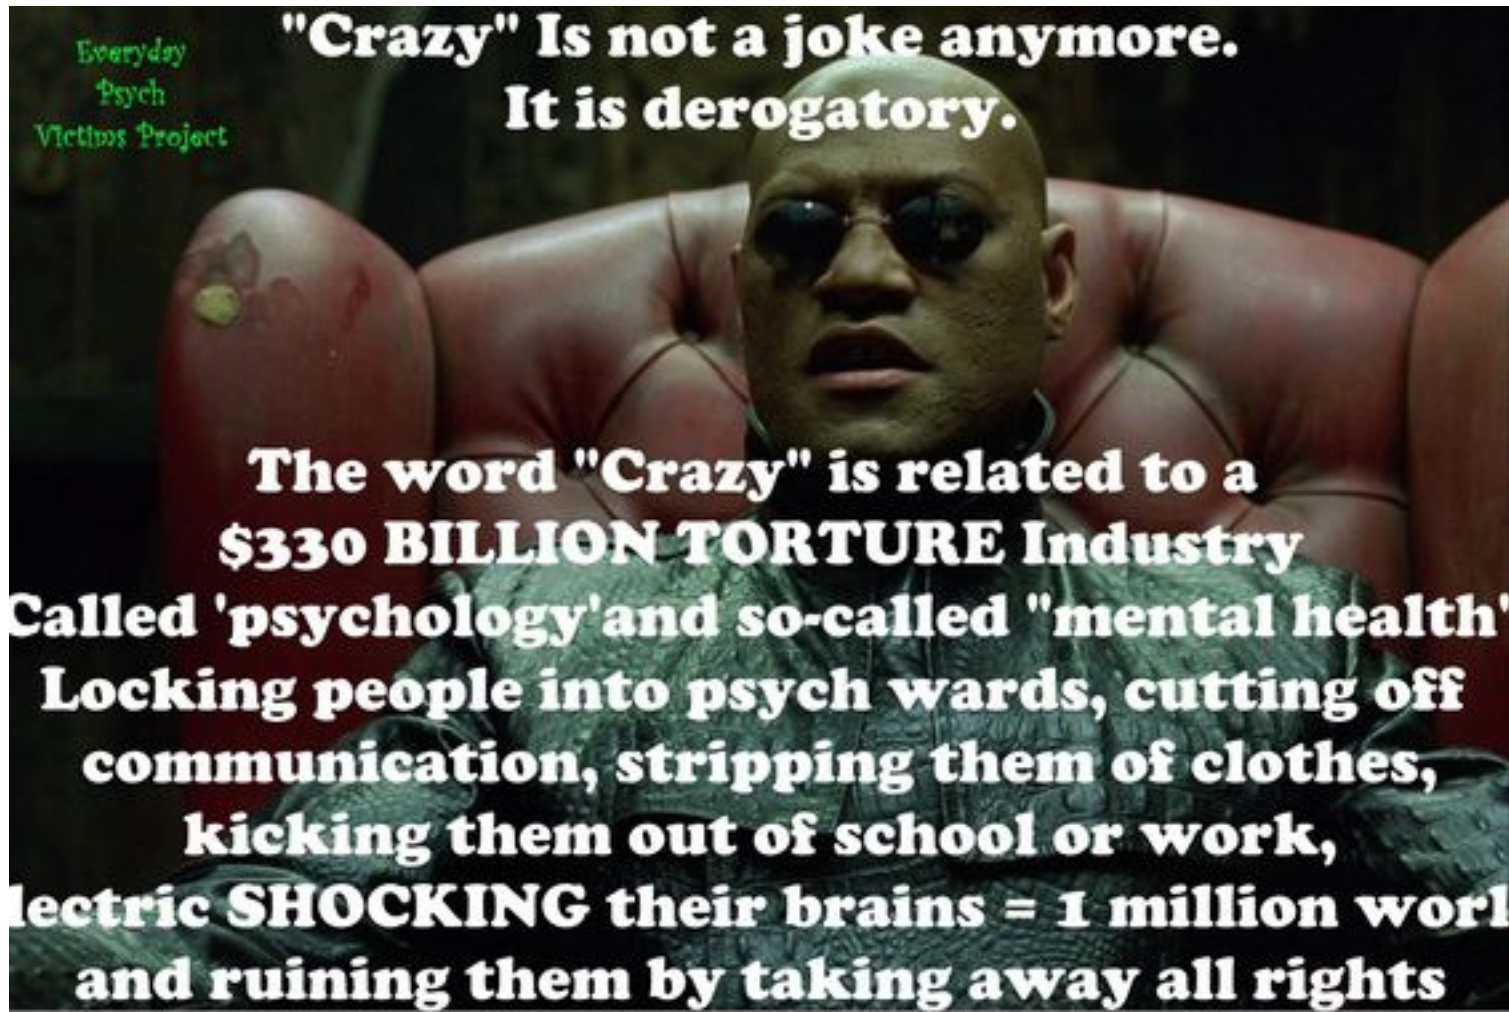

- Scientology has repeatedly mailed junk mail for months to "join them in Silicon Valley" - Does Facebook have workers in Scientology? - Meanwhile, Scientology continues to discriminate & abuse

No matter what, it's a web of "disorder" lies and labels, all of which, are social constructs that do not exist.

VICTIM ON MIA

In 1993 my parents took me to a psychoitrist because I took morning glory seeds & I was acting bizzare. The stupid idiot called me schizo & drugged me with Haldol. It removed my Spirit. I did not hurt or threaten ANYONE!
In 1994 my Mom left me at the local mental hospital where I was raped hypodermically. The goons & "doctor" took my will in the restraints. I did not hurt or threaten ANYONE!
In 1999 I was angry so my family persuaded me back to the same inpatient unit. I was held in there for 52 days. Nurse Bob and a proctologist molested me in an exam room & a "judge" took my driver's license away, & my right to vote. I turned 25 in there. During this time I never hurt or threatened ANYONE!
I lived in the board & care system for the next 6 years of which three I remained a ward of the county. I got a job up the road from the board & care & worked cooking & selling pizza. Towards the end of my 12 years at Pizza Chief I got addicted to speed. The meth really helped me.
But now I am a drug addict alcoholic with chronic pancreatitis, cirrhosis of my liver, diabetes 2, & I'm always in pain. :0)

IT'S A HARD KNOCK LIFE FOR US!

I was hospitalized for the first time when I was 9 years old, and put on psychotropic medications. Continuing on through the course of my teen years, I spent over 7 birthday's, and Christmas(s) institutionalized. One year after my first hospitalization, my mother signed a contract with an EI school that said they would help with behavioral modification of my OCD rituals. However, that was not the case. The teachers and staff of this program sexually harassed and bullied us. When we fought back, they video taped only our reactions. The videos were then sold to Michigan State University's Psych program for research. I was one of the lucky ones, because my parents were 2nd generation tax paying citizens of the city where the program resided in. The ACLU got involved, not because of the abuse, but because I was denied my right to public education in my own school district. (I regret not suing.) I was then rehabilitated into a normal school setting, but monitored by former staff and a particular social worker from the program all the way until I dropped out of high school. At the age of 17 I hospitalized against my will, and by 19 was 277 Lbs. from the cocktail of medications they put me on. I was on 2000 mil of Depakote, 6 mils of Risperdal, plus a few more at one time. Throughout the course of my life, I've been on every psychiatric medication in the book. One day, about 4 years later, I had something of a divine Intervention occur. I don't know if I really was born mentally ill; mkultra'd suffering from an Existential crises, possessed by a jinn, demon; or the devil himself... All I know is that the voice in my head that used to harass me went away! It's been 10 years now. Thank God I took the leap of faith to stop my medications. Since then; I've been so much healthier, had I kept taking them, I more than likely would have ended up dead. My story doesn't end here. If you work with the Press, and would like to know more. Contact me via Instagram: @_d_a_n_i_e_l_b

BEHAVIORISTS VS ARTISTS - NOTICE MANY VICTIMS ARTISTIC

By Creative Rebel United States Sep 13, 2018

Category: Alienation

Behaviorists VS Artists... Behaviorism such as counter productive work activity labels #Creative people as more like to do this... also so-called "negative affect" personalities = #EUGENICS De Facto!!

I wrote this on twitter. But do you notice that many psych victims are Artistic? It is very sad... For example, there's this anti-psychiatry group that asks people if they want to add artwork. Do you think non-artistic people would do that? No.

Then, upon that, the behaviorists prevent people from freedom of expression, movement, speech, thought, self-defense, and well, all freedoms. Then psych victims feel "appreciative" just for so-called art or music "therapy" - which is lowly and controlled.

They're reduced to using no pens, keyboards, technology, etc in wards and forced to be like a child again with crayons or markers.

Even if you look in the past at famous people victimized, you'll see more artists, entertainers, writers, and so on.

That's how this is EUGENICS and mono-personality. In the end, anyone who feels NATURAL emotions must go on defense all of the time, or be captured.

The same goes for alternative beliefs or anything anti-status quo.

This "counter work behavior" statement comes again, from that faux management class.

Can you imagine how workplaces are discriminating against you if you just show CREATIVITY?!
